

FUSION SERIES

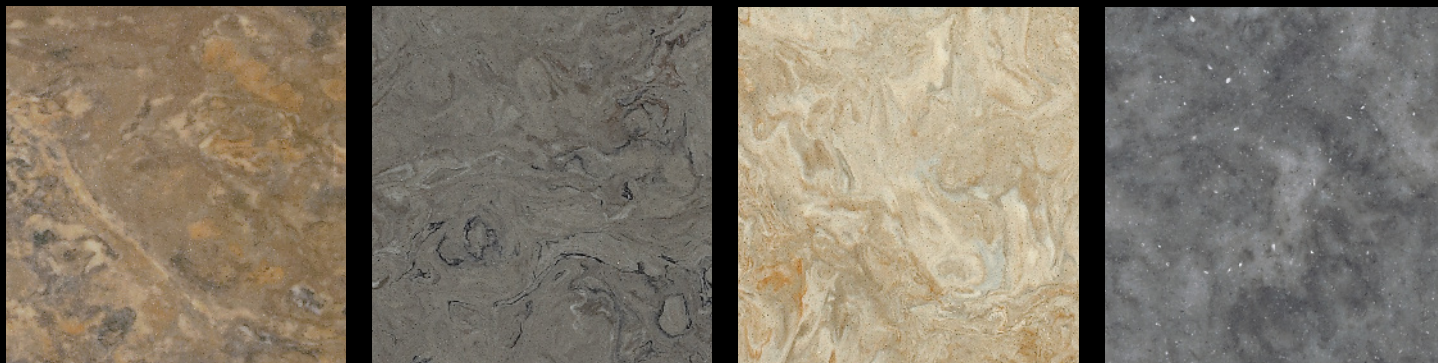

The Fusion colors have multi-directional veining and typically show two color tones. Fusion colors offer a quiet backdrop for featured design elements.

Thunder MSS-502 Seashell MSS-503 Glacier MSS-527 Desert MSS-530

PLATINUM SERIES

The Platinum colors, like the Fusion colors, have multi-directional veining. However, Platinum colors have more pigmentation to create a richer presentation. The bold look of the Platinum colors can be used as a focal point, or mixed with other contrasting designs.

Printed representation of colors may vary from samples due to printing limitations. Photographs of Mystera colors are not large enough to represent the full pattern.

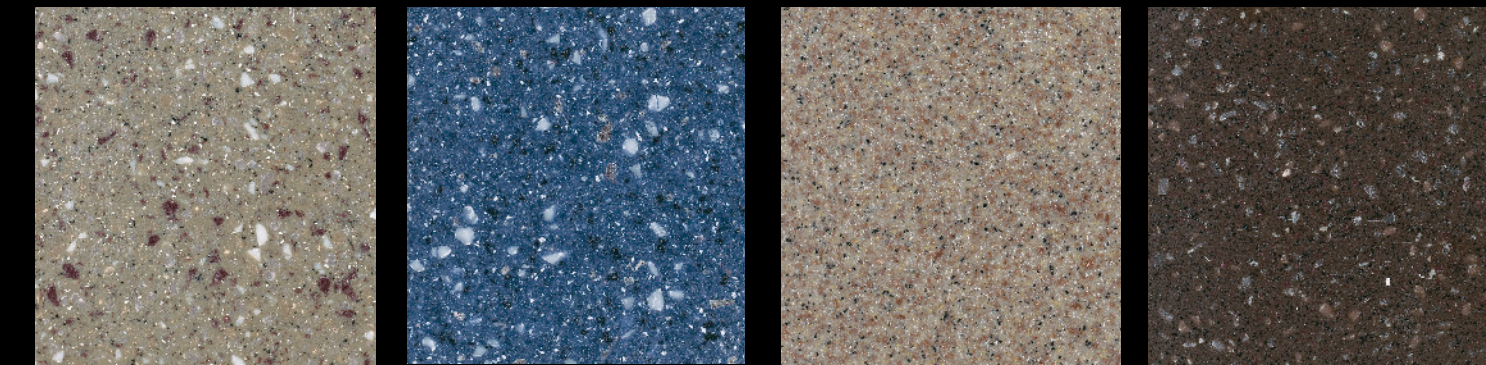

MYSTERA
solid surface

Countertop shown in Tombolo MSS-817

Mystera Solid Surface offers striking designs for practical performance. From the bold to the subtle, the colors of Mystera can be thermoformed and fabricated for any surface application.

The properties of Mystera Solid Surface give a hygienic, non-porous, mold and bacteria resistant surface for a clean work environment, and meet strict commercial guidelines for restaurants and healthcare.

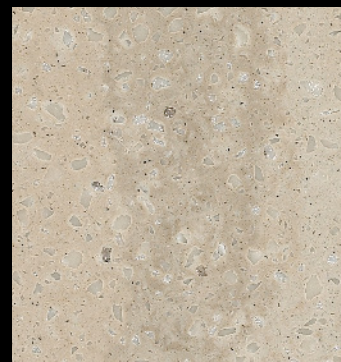

All Mystera products are covered by a ten year limited liability warranty.

Conifer MSS-323 Oceanic MSS-329 Leather MSS-331 Goldmine MSS-339

WINSOME SERIES

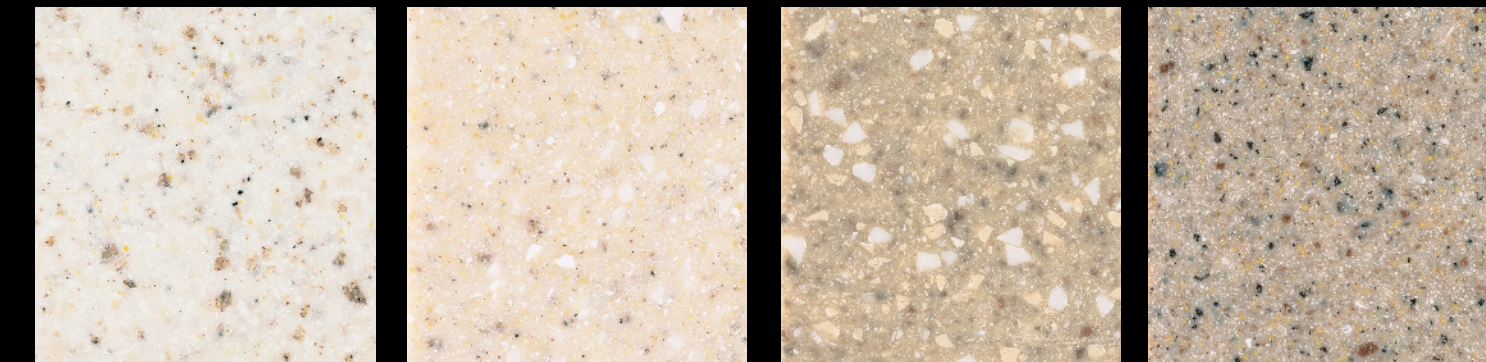

The Winsome colors have linear veins with a distinct direction. The variation within each color is subtle with soft contrasts moving in and out of the pattern. These colors were selected specifically to support both commercial and residential palettes. The neutral shades are versatile and can be paired with a wide array of colors. Thought should be given to laying out the linear design for "L" shaped countertops.

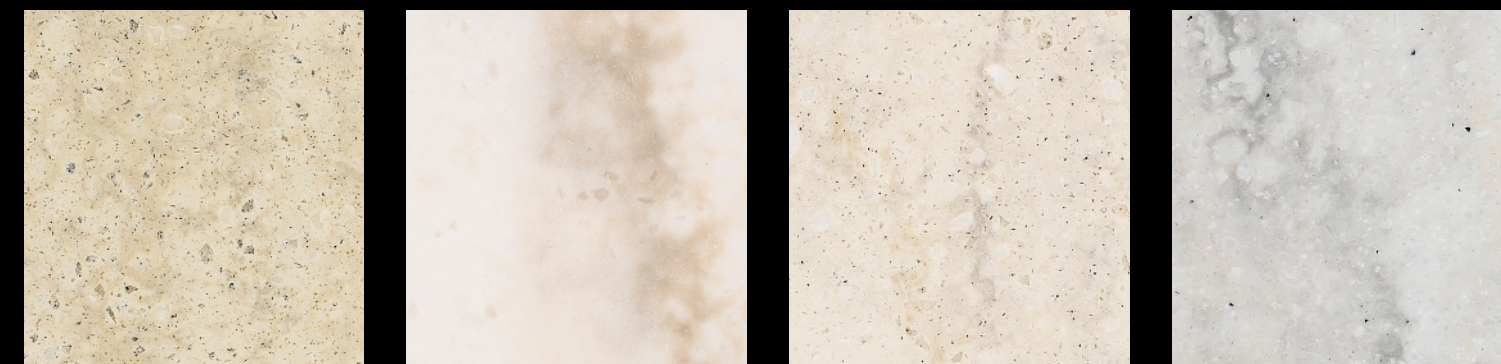

Cachet MSS-816

ARTISAN SERIES

The Artisan colors offer a wide range of colors in particulate and solid visuals. The colors are appropriate for all commercial applications and can be used in residential design when a quieter palette is specified. The simplicity of the design will fit the budget for most any project.
